Welcome to our monthly wedding update!

Although we've been extremely busy recently planning some magical weddings, we are excited to share news, trends and tips with you in this brand new newsletter!

As usual - get in touch should you need any FREE guidance and support!

Jemma,
Head wedding planner

"Gibson Hall ceremony late license"

With the [change in the licensing law](#), couples can now get married at any time of day instead of being restricted to between 8am and 6pm. Here at Gibson Hall we think that's the perfect reason to opt for a romantic dusk ceremony followed by a candle lit reception in our beautiful, secluded garden.

Speak to one of our dedicated wedding planners from The Perfect Wedding Company about the possibility of having a blessing in our garden, which at night time can be transformed into a romantic haven just for you and your guests.

Wedding planning tips

Here at the perfect wedding company our job is to make your wedding as perfect and stress free as possible. We have a wealth of experience when it comes to anything wedding related and we really want to share that experience with you. So in every issue we will share a top tip to help you along.

In our opinion, when you first begin planning your wedding, creating a mood board is a definite must. It will help you focus and identify potential suppliers. Go to our [blog](#) for more advice on how and why you should be creating a mood board.

Venue of the month

Each month The Perfect Wedding Company would love to present the title of "Wedding Venue of the month" to one of our favourite venues.

This month the award goes to [Gibson Hall](#), Bishopsgate. We think that with the beautiful ornate ceiling, its Corinthian marble columns and crystal chandeliers, the Main Hall provides a glittering backdrop for any wedding ceremony and reception. With the addition of its own secluded garden and fabulous in house catering provided by Kudos, what more could any couple wish for on their special day.

Dish of the month

As we work on behalf of two different caterers, we thought it only right that we include some of our favourite dishes!

This month, Dish of the Month is:
"Truffled mascarpone with asparagus and baked parmesan on brioche" (v)

Special mentions

Here at The Perfect Wedding Company we like to recognize any special achievements received through the hard work and dedication of our staff. So we think we ought to mention that Gibson Hall has been awarded the "City of London Garden Award."

We really believe that the Gibson Hall Garden is a hidden treasure amidst the hustle and bustle of central London. So why not give us a call if you are looking for a wedding venue with a great location but with the serenity of a country garden.

Our venues

As part of the [Crown Group](#) the Perfect Wedding Company is privileged enough to exclusively look after some truly inspiring venues. Gibson Hall, Tower Bridge Walkways, Royal Courts of Justice, Church House and new to the list, The London Bridge Experience, we really do have something for everyone.

Tower Bridge is one of the most iconic landmarks in London and the really exciting part (and what a lot of people don't know), is that you can hold your wedding reception in the Walkways high above the River Thames, with stunning view out across the whole of London. [Contact us](#) for more information about Tower Bride Walkways or any other of our unique venues.
